

JICK MUNRO & THE AMAZING LASERBEAMS
ABEL

Well I just can't stop believing
And I wanted to explain
But I know, I know
He won't believe me

Now I walk, I walk alone
But you follow me, wherever I go
Wherever I go

But I won't walk that way you know
A hurt that only makes you grow
And I'll forever know

I've known you all my life
You fell behind
But I won't, I won't,
I won't leave my home

When I come to end someday
Or will I just float away
Float away

It's the root that makes the rhythm
It's the life that won't remain
It's the sad look in your eyes
That will make me fall again (2x)

It's the root that makes the rhythm
It's the life that won't remain
It's the sad look in your eyes
That will make me fall again (2x)

But I won't walk that way you know
A hurt that only makes you grow

And I'll forever know
I won't let anyone go

I won't let anyone go
I won't let anyone see
This won't be me
