

**JICK MUNRO & THE AMAZING LASERBEAMS
DRINKING SONG**

The finest beers, we are loving them here
Just drink as many as you can
We need our drinks, cause without we can't sing
And our lives will all be lost

And I say to you now, get me a pint somehow
And I'll sing you a song from yesterday
And so the mighty ones, those who are brave and strong
They took what was not theirs to keep

And so long, farewell and goodbye
We are having the time of our lives
Just drinking drinks, and having fun
All night long

Some of the richest man, came over to our stand
And spoke without an honest word
He said, you stole our drinks
And without we can't think and our lives will all be lost

And so long, farewell and goodbye
We are having the time of our lives
Just drinking drinks, and having fun
All night long

You once pulled a glass I held firmly in my hands
And it shattered all across the floor
That liquor soon to die, Oh god and my oh my
Oh boys what a waste of wine

And so it went on, us drinking and singing songs
Every minute we enjoyed even more
Until we're sick in our heads and we're starving for our beds

We'll keep drinking until the day we die
We'll keep drinking until the day we die

And so long, farewell and goodbye
We are having the time of our lives
Just drinking drinks, and having fun
All night long
